### 1 Session 10: meeting support: FlySPEC: a multi-user video camera system control

Qiong Liu, Don Kimber, Jonathan Foote, Lynn Wilcox, John Boreczky

December 2002

Proceedings of the tenth ACM international conference on Multimedia

Full text available: pdf(311.32 KB)

Additional Information: full citation, abstract, references

FlySPEC is a video camera system designed for real-time remote operation. A resolution of an optomechanical video camera with the wide field of view always. The control system integrates requests from multiple users so that each controller seamlessly integrates manual and fully automatic control. It supports a range of full manual control. The system can also be ...
